Fantasia Colour Remover

An extremely effective way to remove artificial Colour from Hair, without any DAMAGE TO THE HAIR STRUCTURE. Also can be used up to 3 times in one day without any damage

Mix Phase A+ Phase B together in equal parts, apply, with a tint brush, an abundant amount of the colour remover on the area that needs to be corrected, spray hair with 1 spray of water & then cover hair with shower cap.

Hair should be DRY not shampooed. Place client under a dryer at moderate heat for up to 45 minutes. Then when the desired shade is achieved rinse thoroughly then shampoo & dry the area where you have treated. To ensure all artificial pigment is removed, apply 10vol peroxide to cotton wool take a strand test where it cant be seen and wipe the cotton wool over the strand , wait 5 minutes if the hair turns dark you know that all artificial colour has not been removed, wash 10 Vol of the strand that was tested and re-apply Fantasia Colour Remover.

Important Note

When re-colouring hair you must choose a colour 3 levels higher than the level you require.
